

Task 0 – Simulation Resources

To get a better understanding of V-REP simulator, go through the following resources:

1. Getting started with V-REP Part 1
2. Getting started with V-REP Part 2

Follow the instructions given in each video and practice them.

1. Getting started with V-REP Part 1:

This tutorial covers the basic introduction to V-REP user interface, Position and Orientation of Objects, Simulation settings and Physics Engines.
